ORDER:

The Government have examined the suggestion of the Fodder and Grazing Committee regarding the utilisation of poramboke lands for fodder and grass cultivation and the remarks of the Board of Revenue thereon. With a view to promote the growth of fodder crops on poramboke lands, they consider that a blue print should be prepared collecting information in respect of a few selected villages regarding the extent of communal grazing lands available in each of them, how they could be improved and what departmental action would be necessary in this direction. The Board of Revenue is requested to take action accordingly and to submit to Government a report in the matter in due course.

2. The Board is also requested to issue necessary instructions to the Collectors, to give all facilities to the Municipalities and other public bodies for increasing the fodder production by grant of waste lands and remission of land revenue as already ordered in G.O.No.2440, Revenue dated 29th August, 1952.
